WON A MILE RACE.

Westchester the King Among  
the Guttenburg Purse-  
Takers To-Day.

IT WAS WINTRY ON THE HILL.

Guard, Violetta and Pedestrian  
Other Winners in a Rather  
Light Card.

GUTTENBURG RACE TRACK, April 7.—"From Summer to Winter," what the talent murmured to-day on their way to the races at North Bergen. Yesterday the weather was warm and everything looked promising for an early Summer. All the good horses were beginning to make their appearance, and from then on it looked as if there would be nothing but excellent contests. But what a change to-day!

There was a mixture of snow, sleet and rain, and the track and surroundings were all covered with white. Water which made one think that Winter was approaching again, instead of leaving.

The entries to the different events were rather light, and the first race, which had originally fifteen horses entered, was reduced to nine starters through scratching.

Brooklyn and Guard opened equal favorites in the first race, but it was such a rush to play the latter that his price was quickly cut to 8 to 5. When the betting settled, however, he went back to 2 to 1 again, and closed favorite at that price. Brooklyn went back to 6 to 1 when the plunge came on Capulin, who closed second choice.

The start was a bad one, with April Fool getting much the best of it. Guard, however, soon caught him, and the favorite won in a gallop, to the delight of the talent.

The next event was a dash of four furlongs for two-year-olds.

Although Ellen H. was badly beaten the other day in the same company, the talent did not think that race was her true form, and sent her to the post a slight favorite over Violetta.

The talent were right in their judgment, as, although Ellen H. did not win, she ran a much improved race over her previous performance and Violetta only beat her a head in a driving finish.

**THE RESULTS AT GLOUCESTER.**

Wallace G. Captures the Third Race at G to 1.

GLOUCESTER RACE TRACK, April 7.—The races here to-day were run under great difficulty, the track being very heavy and the weather rainy and cloudy. A number of horses were scratched.

First Race—Four and a half furlongs.—Won by Come On, even and 3 to 5; Althea second, even for place; Hold Hardy third. Time—1:00.

Second Race—Six furlongs.—Won by Hil 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:22.5.

Third Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Fourth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Fifth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Sixth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Seventh Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Eighth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Ninth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Tenth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Eleventh Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Twelfth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Thirteenth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Fourteenth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Fifteenth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Sixteenth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Seventeenth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Eighteenth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Nineteenth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Twentieth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Twenty-first Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Twenty-second Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Twenty-third Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Twenty-fourth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Twenty-fifth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Twenty-sixth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Twenty-seventh Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Twenty-eighth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

Twenty-ninth Race—Six and a half furlongs.—Won by Althea 2 to 1; Lady Belle second, 10 to 1; 3 to 5 for place. The Nun, third. Time—1:28.

## DOCK RIOT AT HULL.

Striking Laborers Attempt to  
Capture a Steamer.Two Conflicts with the Police—  
More Trouble Expected.Union Men Appeal to London, Glas-  
gow and Liverpool for Aid.

LONDON, April 7.—At Hull, the well-known shipping port in Yorkshire, for some time past, some of the shipping companies have been employing non-union laborers to work in loading and discharging their vessels. This caused great discontent among the members of the Dock Laborers' Union, and a few days ago the unionists went on strike.

Quite a large number of non-union men went to Hull to take the places of strikers, and work about the docks was proceeding satisfactorily until to-day, when the strikers assumed an offensive attitude and by threats and other means of intimidation succeeded in completely blocking work on every vessel in the port, with the exception of the steamer Montebello, upon which a large number of non-unionists were employed.

A crowd, comprising several thousand men, gathered in front of the docks, and their sympathizers proceeded to the dock at which the Montebello was lying, and made a determined attack upon the objectionable laborers.

Having beaten back the laborers, the strikers made an attempt to capture the steamer.

The police appeared on the scene, but the mob paid little attention to the orders of the police, and the strikers, and finally turned and attacked the officers. A severe conflict followed, which resulted in the mob being driven back and off the dock. In the struggle, several men were more or less seriously injured. The strikers then turned their attention to the offices of the Shipping Federation.

Armed with stones and bludgeons, they made an attack upon the building, in which the offices are located. The police were promptly on the scene and another conflict ensued.

The officers laid about them right and left, and succeeded in breaking up the riotous crowd.

The streets along the water-front are now filled with strikers, discussing the situation, and many threats are made. It is thought that further trouble will occur.

It is said that the police have asked that soldiers be sent to assist them in preserving the peace.

Late this evening the Dock Laborers' Union, of Hull, issued an appeal to similar unions in London, Liverpool and Glasgow, requesting them to unite with the Hull union in a fight against the Shipping Federation.

No steamers have been able to get away to-day, except those which had their cargoes aboard before the trouble occurred, and the entire shipping trade is at a standstill.

Among the companies affected by the strike of the union line, some of the vessels of which are in the American trade, are the following:

Charles H. Wilson, one of the owners of the line, has incurred the special enmity of the strikers, and many threats are made against him.

**OCEAN OF WHISKY BURNING.**

15,000 Barrels of the Kentucky  
Fluid Feeding a Fire.

OWENSBORO, Ky., April 7.—Fifteen thousand barrels of whiskey in the four Glenora warehouses near this city, the property of R. McArthur are on fire.

The buildings and contents will be totally destroyed.

**KILLED IN THE TUNNEL.**

Charles Rand, whose business it was to look after the wires of the signal service in the tunnel of the New York, New Haven and Hartford Railroad, was killed this morning at about 11 o'clock while going from the Eighty-sixth street station through the tunnel to Ninety-third street.

He was a new man, having come from New Haven five days ago, where he leaves a wife and several children.

Just what struck him no one seems to know, and the opinion is that the fog and smoke in the tunnel confused him, and when the train came along he was unable to find a handle.

Nobody knows what a bomb Riker's first train is until he suffers from a burning bottle. Riker is at 22nd and 4th ave.

## TRACES OF POISON.

Buchanan's Lawyer and Dr.  
Loomis Differ About Them.Admissions Favorable to the De-  
fense Drawn from the Expert.The Problems of the Post Mortem  
Scientifically Discussed.

The combat between the medical, chemical, pathological, toxicological and microscopic scientists as to the cause of the death of Anna H. Buchanan-Buchanan began, with the advent of Dr. Henry F. Loomis as a witness, before Recorder Smith yesterday, was continued to-day, with Dr. Loomis under the critical cross-examination of William J. O'Sullivan, of counsel for the defense.

For O'Sullivan is himself a medical scientist of no mean achievement, and Dr. Loomis is recognized as one of the great men in his profession.

Dr. Loomis gave a telling hint of his temperance when he replied to a question that he devoted the forenoon of each day to his private practice, putting in each afternoon on his experiments in the Loomis Library. His whole life, business, recreation, study, play is medical science.

"What are capillaries?" was the first question asked by Mr. O'Sullivan today.

"The smallest blood cells to be seen on the surface," replied Dr. Loomis.

"What is a 'rush'?"

"A rushing of the blood to the capillaries of the face."

"Can you see those capillaries?"

"No, sir. I use the term capillaries for those that are visible just as any other person would."

**Describing an Antepoxy.**

Then, with the wax model of a human brain held up to view in his left hand, Dr. Loomis described again just how he would put his fingers under the temporal section, touching the temporal section of the brain (the under side, next to the skull) in removing a brain for examination, and then he went through the gentle but deft and quick operation of "peeling off" the brain.

He described again the difference between the temporal section of Anna H. Buchanan's brain and in answer to the next question asked by Mr. O'Sullivan, he said that the brain was found in the condition which would have been found had the woman had a tumor of the brain.

"I don't think so,"

"I don't think so," Mrs. Buchanan did not sign a report declaring that the fluid had gone to the brain."

"I said that I thought it must be so because of the remarkably good state of preservation of the brain. But I did not know it."

O'Sullivan was quick to take advantage of this admission, and followed it with:

"You did find a dark fluid substance in the brain—a substance not due to the blood?"

"Yes, sir, I did."

"What did it indicate?"

"Did the brain have the appearance you would look for in an acknowledged case of opium poisoning?"

"I do not know. It is so many years since I observed a case that I do not remember the appearance of a possible case of opium poisoning."

"Do you consider Prof. Witthaus an authority on opium poisoning?"

"I do."

The medical-legal cross-examination of Dr. Loomis by Mr. O'Sullivan continued, and he says that the most usual signs to be found in cases of death by morphine poisoning are a contracted pupil, a cold, clammy skin, and a weak, rapid pulse.

Did Not Follow Witthaus Far.

"Do you endorse that statement of Prof. Witthaus?"

Dr. Loomis agreed that those were the more frequent signs, but they were not infrequently absent.

"You may or may not have congestion of the lungs in cases of death by opium poisoning?"

"I do not know. It is so many years since I observed a case that I do not remember the appearance of a possible case of opium poisoning."

The other question Dr. Loomis said that it was impossible to determine affirmatively by a post mortem autopsy whether a person had died of morphine poisoning.

"Then why did you undertake the post mortem examination of Mrs. Buchanan's brain?"

"To find out what she died of. When opium poisoning is suspected, attempts are made to get the brain for examination, for the elimination of other questions."

In lay-English, this means that the patient did not die from any other disease, leaving open the question of whether the cause was opium poisoning or some other cause.

Dr. Loomis then read from Prof. Witthaus' book another of the technical indications of opium poisoning, which Dr. Loomis admitted was not present in Mrs. Buchanan's brain.
